

District Performance Report

Vancouver Public Schools

2015

Under the No Child Left Behind Act (NCLB), schools and districts that receive federal funds must demonstrate Adequate Yearly Progress (AYP) towards the goal of 100 percent of students meeting state standards by 2014 or be subject to various sanctions.

During the 2015-16 year, Washington State received a waiver that excludes the results of Smarter Balanced Assessment, the new state assessment, in determining Adequate Yearly Progress (AYP). Three other measurements were used to meet the federal mandate.

1. The rate of unexcused absences for students in grades 1-8
2. The graduation rate for high school students
3. Participation rate of 95%

District Improvement

Our district did not meet adequately yearly progress (AYP), and is in Step 2 of improvement. We are collaborating with our schools to implement a district improvement plan.

Highly Qualified Staff

The Elementary and Secondary Education Act (ESEA) requires that all teachers who teach core academic subjects be highly qualified. Full certification, a bachelor's degree, and demonstrated competence in subject knowledge and teaching are required to be highly qualified. In 2014-2015, 98.91 percent of district teachers met or exceeded these standards, and they continue to improve their knowledge and skills with ongoing professional training.

For detailed information, go to vansd.org/performance-data. Information about teacher qualifications is available on this website: [k12.wa.us/TitleIIA/Highly Qualified Teachers.aspx](http://k12.wa.us/TitleIIA/Highly%20Qualified%20Teachers.aspx). Printed copies of school reports are available on request.
