

# Student-Centered Experience

Develop/sustain a culture of belonging, safety and positive student-staff relationships

## Making Progress

### Practices that Contribute to a Culture of Belonging

All elementary, middle and high school students participate in social emotional learning (SEL) experiences through the Second Steps and Character Strong curriculum.

Implementation of CHAMPS/STOIC, a student behavior support framework, have contributed to consistent routines, expectations and relationships at school.

VPS Partnership provides 14 therapists and one program supervisor providing mental health services at all of our secondary schools.

### Fall 2023 Panorama Student Survey, Grades 3-12

VPS students are reporting feeling challenging emotions (frustrated, lonely, angry, sad, worried) less frequently.

Fall 2023 is largest cohort of surveys completed.

4th, 5th, 6th and 7th grade students have a 10% or more gain since Spring '22.
