Our VISION of a Graduate

Vancouver Public School Graduates have the core knowledge and life-ready skills to meet the real-world demands of their chosen next step. Our graduates are curious learners who can persevere and adapt to changing conditions. They are effective communicators who work independently or in collaboration with others in search of informed solutions to complex problems. Whether entering the workforce, trade programs, and/or higher education, VPS graduates are compassionate and inclusive human beings who will positively influence their local and global community while consistently acting with integrity.

What Can We Focus On to Achieve This Vision?

Student-Centered Staff. Advance each student on their journey towards our vision through a diverse and skilled workforce that reflects our student population. Develop a culture of belonging by honoring the uniqueness of each student in an inclusive and inspiring learning community.

Student-Centered Experience. Design learning experiences that motivate each student to realize their potential and love for learning.

Student-Centered Community. Increase family and community trust, connection, and partnership to ensure each student can thrive in their journey towards our vision. Partner with families and communities to help determine and deliver needed access and support for our students.

How Can Volunteers Aid In This Vision?

Working side-by-side with our teachers and staff, you can model Vancouver Public Schools CORE VALUES of:

- Safety
- Belonging
- Equity
- Integrity
- Community
- Love of Learning

These core values serve as a compass, providing direction and alignment to goals, strategies, and relationships.

BECOME A VOLUNTEER - MAKE A DIFFERENCE

The Role of Volunteers In Our Schools

Volunteers play a crucial role in the success of our schools. They bring a wealth of skills, experiences, and passion into our schools, enriching the learning environment in countless ways. Whether a volunteer is a family member, a current or retired professional, or a college student, each one offers invaluable support to our teachers, staff, and students. Volunteers infuse our schools with energy, creativity, and a spirit of collaboration. Their selfless contributions make a profound difference in the lives of students and educators, helping to shape the future leaders of tomorrow.

Choose The Way You Want To Volunteer

- Volunteering does not mean you have to come every day

In The Event of an Emergency

In the event of an emergency, volunteers will need to follow staff members' directions.

Staff Emergency Flip Charts are posted at the door of each classroom and include procedures for various situations that could arise in a building.

Vancouver School District has moved to a new Standard Response Protocol (SRP), created by the **I Love U Guys Foundation**. The I Love U Guys Foundation's program for crisis response and post-crisis reunification are created through research and experience-based best practices.

The Standard Response Protocol (SRP) is a uniform, planned, and practiced response to any incident. By standardizing the vocabulary, all stakeholders can understand the response and status of the event.

These five (5) specific actions can be performed during an incident. When communicating these, the action is labeled with a "Term of Art" and is then followed by a "Directive".

HOLD is followed by the Directive: "**In Your Room or Area**" and is the protocol used when hallways need to be kept clear of occupants. Examples of HOLD conditions include: an altercation in the hallway, a medical issue, a maintenance issue.

SECURE is followed by the Directive: "**Get Inside. Lock Outside Doors**" and is the protocol used to safeguard people within the building. Examples of SECURE conditions include: criminal activity in the area.

LOCKDOWN is followed by "**Locks, Lights, Out of Sight**" and is the protocol used to secure occupants quiet and in place. Examples of LOCKDOWN include: intruder, angry or violent parent, report of a weapon.

EVACUATE and may be followed by a location, is used to move people from one location to a different location in or out of the building. Examples of EVACUATE include: fire, bomb threat.

SHELTER - State the **Hazard** and **Safety Strategy** for group and self protection. Examples of SHELTER include: severe weather, earthquake.

A **Secure, Lockdown, Shelter-in-Place** or **Evacuation** will be directed when a situation presents a danger to the building and/or staff in the building. Your decision will be based on the nature of the situation and whether the building is a safe place. Key decision: stay safe or leave safe.
